

Circuit Maze Maker Kit

Guide

With Circuit Maze, your goal is to create a real electrical circuit that lights up designated beacons. The challenges are tricky and clever, providing hours of fun. Plus, when playing with Circuit Maze, you will discover how electric circuits work!

Starting Out

Step 1: Choose a challenge card

Step 2: Set up the game grid to match the challenge card

Step 3: Determine where to add the indicated tokens in the lower right corner of the challenge card to light up the beacons indicated in the challenge portion of the card

Step 4: Position the tokens on the game grid so that the beacons light up

Troubleshooting

Take a look at the Instructions book included with the Maker Kit if you are having problems. You can also view the YouTube video on Think Fun's website here: <https://www.thinkfun.com/products/circuit-maze/>.
