

Coin Counter Maker Kit

Guide

The Cassida C300 is a commercial grade coin counter, sorter and wrapper which recognizes individual denominations and sorts them automatically into bins or tubes, depending on your needs.

Starting Out

Get started with the Cassida C300 coin counter in just a few simple steps. Plug in the machine, power it on, and ensure the coin tubes and trays are securely in place. Use the intuitive control panel to select your desired coin denomination. Pour your mixed coins into the hopper and press “Start” to watch the machine spring into action. The C300 quickly sorts and counts coins with precision, automatically pausing when a tube is full so you can empty and continue without missing a beat. The bright display keeps you informed with real-time totals and batch settings. Whether you're managing a business or organizing a fundraiser, the Cassida C300 brings speed and accuracy to your coin counting. Experience effortless coin handling like never before!

The video below is also a great tool to get you familiar with using the Cassida C300 coin counter machine.
