

## Design and Drill® Workshop Maker Kit Guide

Design and Drill® Workshop is a kit designed for hands-on free play and creativity.

### Age Recommendations

Design and Drill® Workshop is recommended for children ages 3 to 6.

### Starting Out

With brightly colored screws, fun tools, and interesting patterns, the Design and Drill® Workshop is intended to engage your child's creativity while also increasing their hand-eye-coordination and fine motor skills. First, take all of the pieces out of the box. Place the clear, plastic grid face-up. Then, choose a template and slide it underneath the grid. Use the drill to insert screws into the grid, copying the pattern on the template. Place the drill in reverse to remove the screws and start again. Or, use the handheld screwdriver or combination wrench to practice new skills.

Remember, the Design and Drill® Workshop has no right or wrong answers. While following template designs aid in pattern recognition, children are free to create any design they choose. Allow your child to explore, play, and learn.
