

## FunForts™ Glow Maker Kit Guide

FunForts™ Glow is a kit designed to inspire your child to engineer amazing fort structures!

### Age Recommendations

FunForts™ Glow is recommended for children ages 4 and up.

### Starting Out

Who doesn't love a good fort?

This kit allows your child to turn their creativity into engineering marvels! Simply place the rods into the spheres to design a fort shaped entirely of your choosing. While working on motor skills, your child will also learn about angles, symmetry, and how solid structures require balance to properly hold their load.

Note: This kit is okay to use both indoors or out. The rods glow in the dark, but be sure to let them get at least a few minutes of natural light before testing them out!

### Troubleshooting
