

Tornado Maker Kit Guide

The Tornado Maker kit is designed to teach your child about meteorology and the physics of storms.

Age Recommendations

This kit is recommended for kids ages 6 and up.

NOTE: This kit contains small parts and should not be used when children under 3 are present.

Starting Out

Why are tornadoes so fascinating? Maybe this kit can help you answer that question! Simply add water and watch the learning begin.

Adjust the speed on the dial and watch your funnel increase in speed and size. Look through the lid to see into the eye of the vortex. For even more fun, add the “debris” and witness the path it takes into the storm. What do you notice? Don’t forget to add storm sounds for an example of what you might hear during a tornado!

Troubleshooting:
