

Record Player Maker Kit

Guide

The DigitNow Bluetooth Record Player is an all-in-one record player that delivers remarkable sound. The Bluetooth function allows it to connect to external devices wirelessly and easily integrate music into your home.

With DigitNow, you can also digitize your albums and save them on a USB or SD card, so you can take your music with you as an MP3 file.

Start Up

Connect the power cord to the AC outlet. Press the "Power/Volume" key for 3-5 seconds and then the device will power on.

Select the source key to select which source you want to use. Your choices are: phono, tape, AUX in, USB & SD, tuner or Bluetooth function. Once selected your system is ready to play the music.
